

RESOLUTION NO. 043-2025

Approving an Agreement with UBC Precast for the Purchase and Installation of a Precast Restroom Building at a Township Park Facility

Be it Resolved by the Board of Trustees of Olmsted Township, Cuyahoga County, State of Ohio, that:

WHEREAS, the Board of Trustees of Olmsted Township issued a Request for Proposals for the purchase and installation of a precast restroom building to serve the needs of the Township's public park facilities; and

WHEREAS, UBC Precast, an Idaho corporation, submitted a responsive proposal to the Township in response to said RFP; and

WHEREAS, the Township has reviewed and determined that the proposal submitted by UBC Precast best meets the specifications and requirements of the project; and

WHEREAS, an Agreement has been prepared and reviewed by Township officials for the provision and installation of the precast restroom building, at a total contract price not to exceed Ninety-Two Thousand Four Hundred Forty Dollars (\$92,440.00); and

WHEREAS, a copy of the Agreement, including scope, specifications, terms of performance, and insurance requirements, is attached hereto and incorporated herein as *Exhibit A*.

NOW, THEREFORE, BE IT RESOLVED by the Board of Trustees of Olmsted Township, County of Cuyahoga, State of Ohio, that:

SECTION 1. The Board of Trustees hereby approves the Agreement with UBC Precast for the purchase and installation of a precast restroom building, as set forth in *Exhibit A*.

SECTION 2. The Board of Trustees authorizes the Township Administrator to execute the Agreement and any related documents necessary to carry out the intent of this Resolution.

SECTION 3. The Township Fiscal Officer is hereby authorized and directed to certify and appropriate funds in the amount of \$92,440.00 for the purpose of executing said Agreement.

BE IT FURTHER RESOLVED, that it is hereby found and determined that all formal actions of this Board of Township Trustees concerning and relating to the adoption of this Resolution were adopted in an open meeting of this Board, and that all deliberations of this Board and any of its committees that resulted in such formal action were conducted in meetings open to the public, in compliance with all legal requirements, including Section 121.22 of the Ohio Revised Code.

Township Trustees

AGREEMENT FOR THE PURCHASE AND INSTALLATION OF A PRECAST RESTROOM BUILDING

This Agreement ("Agreement") is made and entered into as of the 9th day of May, 2025 (the "Effective Date"), by and between:

Olmsted Township, a political subdivision of the State of Ohio, located at 7900 Fitch Road, Olmsted Township, Ohio 44138 (hereinafter referred to as the "Township"),

and

UBC Precast, an Idaho corporation with its principal place of business located at 464 West Highway 26, Blackfoot, Idaho 83221, by and through its General Manager, Mr. Greg Hoskins (hereinafter referred to as the "Contractor").

RECITALS

WHEREAS, the Township issued a Request for Proposals ("RFP") for the procurement and installation of a precast restroom building to serve the needs of the Township's public park facilities;

WHEREAS, the Contractor submitted a responsive and responsible proposal in response to the RFP, dated [Insert Date];

WHEREAS, the Township has reviewed and accepted the Contractor's proposal and now desires to engage the Contractor to furnish and install the precast restroom building, in accordance with the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of the mutual covenants and promises contained herein and intending to be legally bound hereby, the parties agree as follows:

ARTICLE I – SCOPE OF WORK

1.01 The Contractor shall furnish all labor, materials, equipment, supervision, permitting, delivery, and installation services necessary for the complete procurement and installation of one (1) precast restroom building ("Restroom Building") in accordance with the specifications outlined in the Township's RFP and the Contractor's proposal, both of which are hereby incorporated by reference and made a part of this Agreement.

1.02 The Restroom Building shall be installed at a location in Olmsted Township, Ohio, as designated by the Township in writing prior to installation.

1.03 The Restroom Building shall conform to the following specifications:

- **Dimensions:** 12'-0" x 14'-0" x 10'-0", or substantially similar;
- **Roof:** 5" thick gable, steel-reinforced precast concrete, 3" overhang with ½" drip edge, cedar shake simulation;

- **Floor:** 9" thick, steel-reinforced precast concrete slab with Ashford Formula sealer;
- **Walls:** 4" thick, steel-reinforced, UL 752 Level 4 bullet-resistant, simulated barnwood finish with Behr Concrete Stain 800 (color selected by Township);
- **Interior:** Block filler/primer and two coats of acrylic semi-gloss epoxy, with Tex-Cote Sacrificial Graffiti Guard System (or equal);
- **Doors/Hardware:** Three (3) commercial-grade steel doors, ADA-compliant hardware, painted with Glidden Fortis 350;
- **Performance Criteria:** 5000 psi at 28 days; wind load \geq 130 mph; floor load \geq 250 psf; roof load \geq 60 psf; 1-hour fire resistance rating;
- **Accessibility Compliance:** Full compliance with the 2010 ADA Standards and California Title 24 Accessibility Standards;
- **Signage:** ADA-compliant restroom signage included.

1.04 Optional Features (as selected by the Township and included in the price):

- Solar Lighting Package
- Stainless Steel ADA-compliant Plumbing Fixtures
- Two (2) Solar Ventilation Fan Kits
- Two (2) Room Wastebaskets
- Custom Color Finish (no additional charge)
- Crane and Unloading Services (included)

1.05 The Contractor shall submit stamped drawings and calculations prepared by a licensed Ohio Professional Engineer, and shall ensure compliance with all applicable federal, state, and local building codes.

ARTICLE II – PROJECT SCHEDULE

2.01 The Contractor shall complete delivery, installation, and final acceptance of the Restroom Building on or before **September 30, 2025**, unless otherwise extended in writing by the Township.

2.02 The anticipated project timeline is as follows:

- Submittals: within 14 days of contract execution
- Casting and Fabrication: 60 days
- Assembly: 30 days
- Delivery and Installation: 30 days
- Finishing and Final Inspection: as required

2.03 The Contractor shall coordinate closely with the Township and provide regular weekly updates regarding delivery timing and readiness for installation.

ARTICLE III – COMPENSATION

3.01 The Township agrees to pay the Contractor a total, not-to-exceed amount of **Ninety-Two Thousand Four Hundred Forty Dollars (\$92,440.00)**, itemized as follows:

Description	Amount
Base Unit (Prescott Model with Chase Vault Toilet)	\$87,140.00
Solar Lighting Package	\$1,300.00
Stainless Plumbing Fixtures	\$2,900.00
Solar Vent Fan Kits (Qty 2)	\$1,900.00
Room Wastebaskets (Qty 2)	\$300.00
Custom Color Finish	Included
Crane & Unloading Services	Included

3.02 Price includes all materials, freight, labor, engineering documents, permits, insurance, and taxes (if applicable).

3.03 Payment shall be due within **thirty (30) days** following the Township's receipt of a proper invoice and confirmation that all work and delivery obligations have been met to the Township's satisfaction. Invoices shall be submitted to:

Fiscal Office, Olmsted Township
7900 Fitch Road
Olmsted Township, OH 44138

3.04 Pricing is valid for thirty (30) days from the Effective Date and is subject to written modification thereafter.

ARTICLE IV – CONTRACTOR RESPONSIBILITIES

The Contractor shall:

- Secure all permits and inspections at its own cost;
- Coordinate all required inspections with the Township;
- Submit proof of appropriate insurance as required under Article VI;
- Provide warranties as detailed in Article VIII;
- Ensure delivery and installation meet all local, state, and federal regulations.

ARTICLE V – TOWNSHIP RESPONSIBILITIES

The Township shall:

- Prepare the installation site, including excavation and compacted gravel pad;
- Ensure suitable access to the site for all delivery and installation equipment;
- Coordinate inspection services with its Building Department.

ARTICLE VI – INSURANCE REQUIREMENTS

The Contractor shall procure and maintain, at its own expense, the following insurance coverages:

- Commercial General Liability
- Workers' Compensation Insurance (in accordance with Ohio law)
- Vehicle Liability (for delivery vehicles)

The Township shall be named as a Certificate Holder on all applicable insurance certificates. Certificates of Insurance shall be submitted to the Township prior to commencement of work.

ARTICLE VII – PERMITS AND INSPECTIONS

The Contractor shall be solely responsible for obtaining all necessary permits and for scheduling all required inspections with the Township. All permit fees shall be deemed included in the Contract Price.

ARTICLE VIII – WARRANTIES

The Contractor shall provide the following warranties:

- **Concrete Building Components:** Five (5) years against structural defects;
- **Installed Equipment and Fixtures:** Two (2) years, excluding wear and tear, misuse, or lack of maintenance;
- **Overall Structure and Workmanship:** One (1) year from the date of final acceptance.

All warranties shall commence on the date of final Township acceptance.

ARTICLE IX – RISK OF LOSS AND DAMAGE

Until final acceptance by the Township, risk of loss, theft, or damage to the Restroom Building, its components, or installation shall remain solely with the Contractor.

ARTICLE X – CHANGE ORDERS

No changes to the scope, schedule, or price shall be binding unless memorialized in a written Change Order signed by both parties. Unauthorized work or modifications shall be performed at the Contractor's sole risk and expense.

ARTICLE XI – GENERAL PROVISIONS

11.01 Entire Agreement: This Agreement, together with any referenced attachments, constitutes the entire understanding between the parties and supersedes all prior negotiations, communications, and representations.

11.02 Governing Law: This Agreement shall be governed and construed in accordance with the laws of the State of Ohio. Any legal disputes shall be resolved in the courts of competent jurisdiction located in Cuyahoga County, Ohio.

11.03 Authority to Execute: Each person executing this Agreement on behalf of a party represents and warrants that he or she has full authority to bind such party to the terms and conditions of this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the Effective Date.

Law Director Review and Approval

This will certify that I have reviewed the Agreement between the Olmsted Township Board of Trustees (for Olmsted Township), an Ohio political subdivision, and UBC Precast, an Idaho corporation. The subject Agreement sets forth the terms and conditions for the purchase of labor, materials, and other services by the Township for a precast Restroom Building. Upon review, the Agreement conforms to all applicable legal requirements as to form, is reasonable in its substance and scope, and preserves all otherwise-applicable rights and privileges of Olmsted Township and its Board.

- Optional: See Pricing. Plumbing Package: Include two ADA stainless steel riser toilet seats, six stainless steel grab bars, two toilet paper dispensers, and other restroom fixtures.

Pricing Information Above.

The vendor's proposal should include pricing for the following:

- Precast Building (12'-0" x 14'-0" x 10'-0") or similar size
- Solar Lighting Package
- Crane and Operator for Installation
- Waste Vaults and Plumbing Package
- Shipping Costs to Olmsted Township, OH
- Permits, Registration and Stamped Drawings as required by the Olmsted Township Building Department, upon award.

Exclusions

- Site work of any kind this will be done by Olmsted Township in coordination with the selected vendor
- Sales taxes
- Any other items not specifically mentioned in the quote

Additional Considerations

- **Warranty:** 1-year warranty on the building, and the manufacturer's warranty for all other items.

Timeline

Bathroom must be fully installed and in operation by September 30th, 2025.

Submission Requirements

Interested vendors are requested to submit the following:

- Detailed proposal, including the pricing breakdown and scope of work as outlined in this RFP.
- Estimated timeline for delivery and installation.
- Proof of required licenses and insurance. Insurance rider provided upon award.
- A warranty statement for the products and services.
- References for similar projects completed

We trust that the above information as well as the attached information is sufficient to establish UBC Precast ability to perform.

- b. Questions or challenges to the ADA interpretation are quickly solved using our access to the 2010 ADA Standards Manual for Accessible Design put out by the U.S. Department of Justice. This source provides the actual ADA Regulations and Technical Assistance Material for any questions or challenges which cannot be readily answered by experienced UBC personnel.
- c. UBC Precast has been involved in Precast Concrete production of various Precast buildings and utility buildings for the past 32 years. UBC Precast is a pioneer in the industry of Precast Concrete Buildings and was awarded a U.S. patent for its work in the Precast Industry in 1989. UBC has worked closely with USDA Forest Service, Park Service, BLM, U.S. Army Corps of Engineers, National Atmospheric and Oceanic Administration, and other Governmental entities in the development of desirable and functional models of Precast Concrete Buildings. UBC has provided and installed hundreds of units throughout the contiguous United States, Alaska, and Canada. We have installed our buildings in the most remote locations such as Hells Canyon of the Snake River, to Canyonlands National Park. The examples contained in the reference section of this bid are a cross section of our more recent installations. You may see additional examples and list of customers on our brochures and web site at www.ubcprefab.com.
- d. These methods ensure that UBC buildings meet and exceed the most stringent standards.

4. Construction Schedule and Completion Date: To be determined.

- a. P.O Date: _____. It is assumed that a Contract would be awarded on or _____.
- b. Submittal Process 14 days. This process will provide color selections, finishes desired, as well as submittal of all equipment, fixtures, and hardware used on the Restroom.
- c. Casting of the unit.60 days.
- d. Assembly of the Restroom, 30 days. Delivery 30 days. finishes, and touch up of the unit.
- e. Final Inspection.

Additional Specifications as per the Olmsted Township RFP:

Scope of Work

- D. Interior Walls: one coat Block filler or primer Bloxfil 4000, two coats Tru-Glaze WB 4406 Acrylic Semi-gloss Epoxy.
- E. Floors: Ashford formula concrete sealer.

Electrical Notes and Specifications:

- A. No electrical on Prescott with Chase.
- B. Solar Vent Package is available as an option.
- C. Solar LED light package is available as an option.

Evaluation Criteria:

1. UBC Precast Experience: Please reference the past experience sheet containing projects, names, phone numbers and addresses of similar projects. (provided upon request).
2. Methods proposed to insure the building fit into the appearance and layout of the facility:
 - a. UBC Precast is experienced in creating a facility which will fit into the layout of the project by maintaining the colors, finishes, and top quality building which will deliver many years of low maintenance service.
 - b. UBC has inspected the facilities currently being used at the and will provide a unit which conforms to the aesthetics and use of the buildings already in use at other projects.
 - c. UBC will establish the finishes and layout of the work by working closely with the Owner, Public Works Engineers and Park personnel.
 - d. UBC Precast will provide to the Owner an exhaustive submittal package prior to fabrication of the building. This will ensure that the restroom will fit into the appearance and layout of the Park.
3. Methods Proposed to ensure the Restrooms are ADA accessible:
 - a. UBC representatives have been invited to, and have attended Federal Government workshops on ADA standards. Thereby ensuring ADA compliance to the newest most up to date standards. (UBC and its products also comply with the more stringent ADA California Title 24 Standards.

To Whom It May Concern:

The City of Page, AZ recently awarded a bid for a single vault toilet to UBC Precast of Blackfoot, ID; they exceeded our expectations in all areas. Greg Hoskins displayed exemplary customer service and excelled in communication. All our questions were handled in an extremely timely manner. Likewise, all of the bid paperwork was handled expertly and efficiently.

Unlike all the other companies who contacted us, UBC Precast had the shortest delivery time. Within 6 weeks of being awarded the bid, our vault toilet was delivered. Surpassing all expectations, we were astounded as other companies were promising delivery in excess of 16-18 months out.

As a Director for the City of Page, I deal with a lot of businesses, and I can honestly say that the level of competency and professionalism displayed by Greg Hoskins and the UBC Precast employees far exceeds the norm. I highly recommend the services and products of UBC Precast and would definitely use them again should the need arise in the future.

Sincerely,

Capability Statement /Overall Management Plan / Organizational Structure

This contract will be managed by Greg Hoskins General Manager of UBC Precast.

Mr. Hoskins has 35 years experience in the precast concrete industry. As stated in the cover letter for this project Mr. Hoskins is a pioneer in the industry and has been awarded a patent for precast concrete toilets in 1989. UBC has Manufactured housing licenses in several Western States as required in the various States, this provides additional quality control as required by the several States, i.e. California, Idaho, Nevada, Arizona, and Colorado.

The contract will be staffed by experienced personnel who have been long term employees of UBC. From small orders to large, the number of employees will be tailored to fit the need. Bingham County has a great supply of qualified employees. UBC trains and supports its employees by participating in training programs and sending its employees to technical trade schools and trade conventions when needed.

Ability to meet delivery schedules

UBC precast has in place procedures to insure timely delivery of product orders.

Procedure includes:

1. **Receipt of Order;** Greg Hoskins writes up production sheet which Outlines particular specifications of Order. I.E. Model, color, texture, Flush or vault type unit, etc.
2. **Production Schedule;** David Scott, facility superintendent then outlines the procedure and the required production schedule sheet is filled out to meet any and all components of that schedule. Casting date, curing time, assembly, finishing, and delivery. Notification to the various customers of delivery is updated weekly to correlate this delivery with the customer. In case of problems at the sites UBC Precast strives to maintain a flexible attitude with regards to special problems.

Quality Control: Quality Control is regulated and reviewed by:

Dr. Alfonso Gonzalez, DOTE Corp. 464 Jefferson St. Saint Charles, MO 63301
alg@dotecengineering.com

Pacific West & Associates, Chuck Ballard, P.P. Box 40140, Casper WY 82604
chuck@pacificwestassociates.com

UBC Precast has incorporated in past and present projects Quality Control as outlined in the National Precast Association guidelines, and as required by the various States where UBC holds manufacturing licensing. Independent quality assurance and control for the facility is regulated by Pacific West and Associates. **Testing by independent Engineering firm; Harper / Leavitt Engineering.**

This includes a Quality Control system, which outlines the various stages of the production of any of the Models of Precast Concrete Buildings UBC produces, this process requires a check list of items that must be acceptable before the next step of the production can take place. For example; proper forming and cleanliness of forms. Next rebar and or wire mesh placement. This is followed by installation of lifting hardware, casting of the unit, with weld plate locations installed. Next, cure time and strength of casting is established before any handling of the casting can take place. Assembling procedures, proper fit and finish, welding and inspection of welds done by certified welders on site at production facility. Finishing and paint. This is followed by final inspection and testing of all equipment before delivery.

Testing of products is achieved by local independent engineers who test concrete cylinders cast by UBC technicians, and broke at the proper 7 day 14 day, and 28 day intervals to ensure the strength of the concrete is correct. Results of tests are kept on file. Concrete is not batched on site rather delivered by a local Concrete delivery Company. Results of rebar testing is delivered by the supplier of rebar and kept on file. Any sub par strength test and the casting is rejected and not used on any project.

Blackfoot, ID 83221

To Whom It May Concern:

The State of California Parks and Recreation recently awarded a Purchase Order for a Double Vault Toilet to UBC Precast of Blackfoot, ID. They met and exceeded our expectations in all areas. Greg Hoskins displayed exemplary customer service and excelled in communication. Submittals were handled in an extremely timely manner. The specifications were adhered to in every area, UBC worked well with the on-site Parks Personnel for a safe and on-time installation.

UBC Precast had the shortest delivery time. The vault toilet was delivered far within the Contract time, surpassing all expectations.

I highly recommend the services and products of UBC Precast and would use them again should the need arise in the future.

Sincerely,

DocuSigned by:
