

**Annual
Report
2021**

Mission Statement

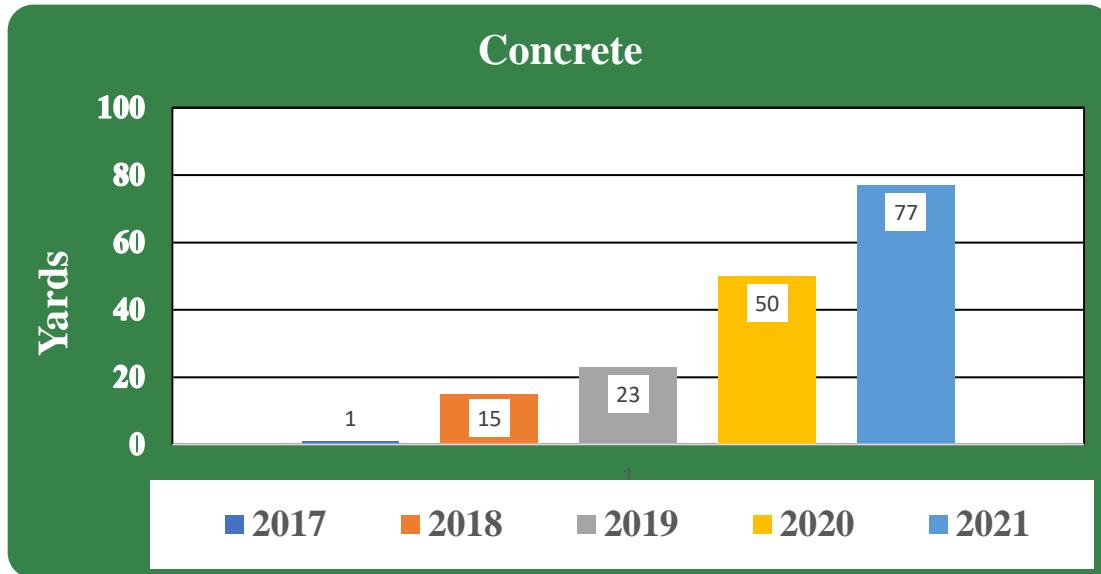

The mission of the Olmsted Township Department of Public Service is to create a safe and healthy environment for residents and businesses in the community. We are service-driven and committed through thoughtful planning and careful spending, to provide high quality services on our streets and roads, maintain our fleet of vehicles and equipment, manage Township buildings and grounds, and provide the breadth of services to residents.

Budget

As illustrated above the Public Service Department has continually over the last four years stayed within the allocated budget. We have done this with proper planning and monthly reviews of expenditures. While staying in budget is important, it is also important to maintain the budget while increasing the services we provide to our residents. The statistics on the following pages will show you how we have increased our workload, while still staying almost 20% under budget every year.

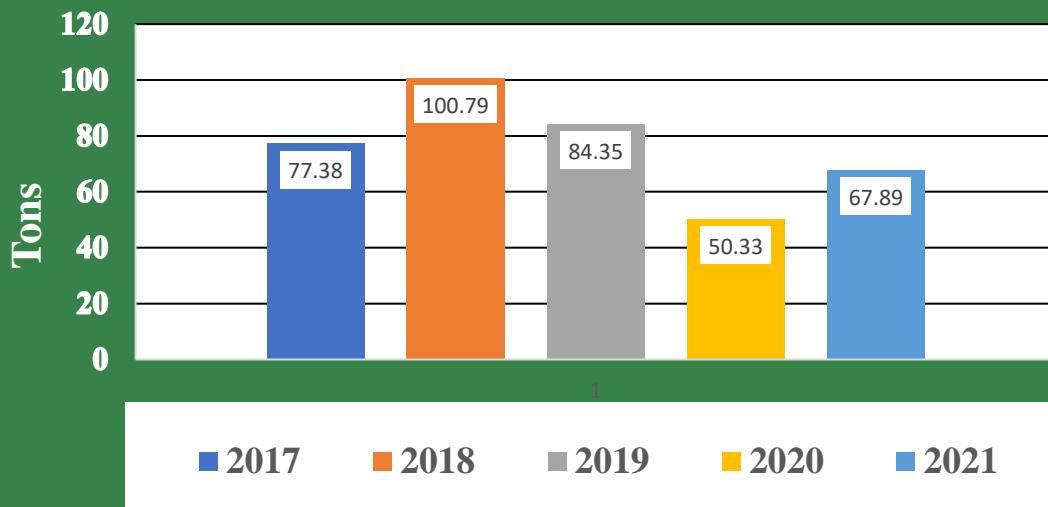

Statistics

The following is a list of streets that we completed concrete repairs on in 2021:

- Southwood Lane
